Subject :	FIA Standard 8865-2015 update		

Dear Sir or Madam,

We hereby inform you that the FIA has published an update of FIA Standard 8865-2015 for plumbed-in and hand-held fire extinguisher systems which can be found on the FIA website at the following link: <https://www.fia.com/regulation/category/762>.

This update includes a new procedure for testing pressure gauges, as the previous requirements based on BS EN 3-7:2004+A1:2007 were not appropriate for the performance required in motor sport application.

We remain at your disposal for any further information you may require.

Yours faithfully,
Nuria Encinas
