GENERAL INFORMATION

SOCHI AUTODROM SPECIFICS

UNIQUE FEATURES:

- Sochi Autodrom is the first circuit in Russia hosting the Formula 1 Grand Prix
- Sochi Autodrom is the only Russian circuit that operates all year-round.
- Sochi Autodrom is well integrated into the Olympic Park.
- The well-developed infrastructure - in close proximity to the Olympic Park and Sochi Autodrom - includes a wide range of modern hotels of different categories and a convenient transport network, with a nearby airport and a transport hub with train and bus connections.
- Sochi Autodrom is one of the few Formula 1 venues to have team buildings specially constructed near the pit boxes. These buildings allow teams to operate away from their motorhomes, thereby simplifying logistics considerably.
- Sochi Autodrom Race Control building is the first in the world to have a video control system with Real-Time Full HD technology - ensuring high quality images on 56 screens tracking the cars. The system is based on data collected from 48 Speed Dome cameras located on the perimeter of the racing track.
- On the eve of the 2017 FORMULA 1 VTB RUSSIAN GRAND PRIX, the TecPro safety barriers system in the second, fourth and thirteenth turns was strengthened according to the new requirements of the FIA, dictated by the increased speeds of the cars.

OPERATIONS:

Sports and Motorsports Competitions

Since the opening of Sochi Autodrom in September 2014, the venue has hosted many sports events. Apart from the Formula 1 Grand Prix, a number of significant sporting events have been held here including the TCR International Series, the F4 NEZ Championship, the Russian Circuit Racing Series, the Max Power Cars and the Porsche Club Cup motorsport competitions, the Russian Triathlon Cup Final, the Mazda Sport Cup 2014 Final, the Sochi Half Marathon, the Russian Formula Masters (Formula 3 class) and the International race of the Mitjet 2L series

Commercial Services

The Autodrom's circuit allows it to host open track days, where motorsport fans get the opportunity to test the Formula 1 track for themselves. The Sochi Autodrom's team of professional drivers offers every visitor 'taxi rides' around the circuit. As part of regular venue tours, everyone also has a chance to visit the Race Control building; the team boxes and buildings, the Paddock Club and the VIP lounge.

Sochi Autodrom is also actively used as a site for corporate events. Companies are offered spacious rooms to hold press conferences, new product presentations and business meetings of all levels. Sochi Autodrom is ready to offer interesting sponsorship packages and an attractive advertising space to potential partners.

2017 REGULATION CHANGES

2017 features one of the biggest regulation shake-ups since the introduction of hybrid turbo power units in 2014. This time bodywork and tyres are the centre of attention, with both getting wider in order to boost downforce and grip, making the cars both faster and physically harder to drive.

Tyres. Tyres are around 25 percent wider than last season, with rear width up from 325mm to 405, and front width raised from 245 to 305.

Wings. The front wing span is increased from 1650mm to 1800mm. Note, that the overall width of the car is up from 1800mm to 2000mm. The height of the rear wing is reduced from 950mm to a maximum of 800mm.

Weight. Maximum weight is increased from 702kg to 728kg.

Power Units. A rule change has been made to prevent drivers stockpiling spare power unit elements. During any single event, if a driver introduces more than one of a power unit element that is subject to a grid penalty, only the last element fitted may be used at subsequent events without further penalty.

A number of changes have also been introduced aimed at reducing power unit costs, guaranteeing supply for customer teams, and closing the performance gap between engines.

Sochi Autodrom circuit is located on the Black Sea coast, in Sochi, which is considered the main Russian resort. The racing circuit is masterfully integrated into the architecture of the Olympic Park, the symbol of the 2014 Winter Olympic Games. The proximity to the Black sea and the picturesque mountain landscapes make Sochi Autodrom one of the most beautiful venues in the Formula 1 calendar.

Monaco is one of the most prestigious races in the world recognized for its entertainment and celebrity presence. Numerous elevation shifts and very tight corners, including one of the slowest corners in F1 racing as well as one of the fastest challenge the drivers. Due to its unique configuration, change in speeds and lack of straights, keeping the engine cool is a point of focus for the teams, as Formula One cars depend on air moving over the car to remove heat, and don't use formal cooling technology.

The circuit, on Ile Notre Dame, an artificial island on the St. Lawrence River, was named after Canadian Formula One driver Gilles Villeneuve, following his death in 1982. 2006 saw the last occasion when US-based Champ Car and F1 ran on the same track. Formula One's performance proved significantly better with a 5-to-7 second advantage both in terms of qualifying and recording of fastest lap times during the respective races. The Montreal Grand Prix continues to be tremendously popular among teams and drivers, owing to its festive atmosphere.

SUPPORT RACE

Mitjet 2L Arctic Cup

For the second time in history the Mitjet 2L Arctic Cup was authorised to become a support race to the FORMULA 1 RUSSIAN GRAND PRIX. The Mitjet 2L Arctic Cup weekend will consist of two 20 min races. 16 cars will be on the grid: 8 cars in PRO category and 8 cars – in Semi-PRO.

Mitjet 2L specs - tubular frame, plastic body, 2.0L 16V 230 HP engine, 6- gear sequential gearbox, rear wheel drive, 750 kg weight and 255/40 R18 semi slick tyres - is built safe and simple, to give all control into the drivers' hands - with no possible influence from the team or the budget. This makes for pure racing and a huge "spectacle" for the spectators on the race track.

Mitjet racing began in France - the French racer Jean-Philippe Dayraut was its founder in 2006. Slowly, this racing was held in other countries and in 2015, thanks to Arctic Energy Company and its owner Sergey Egorov's efforts, Mitjet 2L competitions were held in Russia for the first time. In the first season the Russian Championship for the RAF Cup was held, and in 2016 the series became the Russian Cup. The main event in the Mitjet 2L history was the inclusion of the series in the Formula 1 Russian Grand Prix programme at Sochi Autodrom.

The Mitjet Series Russia is based at Sochi Autodrom. In addition, they have the constantly operating professional Arctic Energy Racing School, headed by an acknowledged expert – Boris Shulmeyster.

SOCHI TRAVEL INFORMATION

HOW TO GET TO SOCHI AUTODROM

Sochi Autodrom is approximately 30km away from the centre of the city of Sochi, 10km away from Adler Railway Station, 10km from Sochi International Airport and 50km from Krasnaya Polyana.

As an integral part of the Olympic Park, Sochi Autodrom helps to emphasize the specific features of this magnificent complex. The unrivalled architecture of the many Olympic venues, the splendid view of the Black Sea and the snow-capped Caucasus mountains create a unique atmosphere around the circuit that is accentuated to an even greater extent on race days. The well-developed transport network and infrastructure, proximity of modern hotels and the entertainment park make Sochi Autodrom an attractive tourist destination.

SOCHI TRAVEL INFORMATION

SOCHI AT A GLANCE

Sochi is one of the southernmost regions in Russia and the second-largest city in the Krasnodar region. Located along the Black Sea coast, it is approximately 1,600km (995 mi) south of Moscow. The city has a permanent population of 401,291 (2016) and Greater Sochi (includes four administrative districts: Central Sochi District, Lazarevskoye District, Khosta District, and Adler District) has 480,215 residents, making it Russia's largest resort city.

Sochi is often unofficially called the 'Summer Capital' of Russia, or the Black Sea Pearl. Sochi is the biggest and busiest summer sea resort in Russia, attracting more than four million visitors annually with its amazing mountainous coastline, endless shingle beaches, warm sunny days, and bustling nightlife. From May to September Sochi's population at least doubles with tourists, including celebrities, and the political elite of the country visiting the region.

Sochi belongs to a tiny part of Russia, which is located in the subtropical climatic zone. This makes Sochi an ideal place to visit all year-round.

Greater Sochi occupies 145km along the Black Sea coastline. Its total area is 3,500km² (2,175 sq. mi) - three times larger than Moscow. However, most of the population is spread along the narrow coastline stripe, while the mountain area (1,900km²/1,180mi²) mostly belongs to Sochi National Park and partly to the Caucasian Biosphere Reserve.
