### Note to Teams

With reference to TD/024-14 we would like to remind you of the following paragraph :

*“The mass flow will be compared to the limit defined in Articles 5.1.4 and 5.1.5 using the logic described in Appendix 2 of this document. A maximum integral above this limit of 3g will be permitted with a down slope of 0.07g/s. This integral will be reset at the start of each lap.”*

We would like to inform you that any persistent or serious breach of the limit set out above during the race will be reported to the stewards immediately.
