

FIA FORMULA E CHAMPIONSHIP

MEDIA ACCREDITATION PROCEDURE: RACE EVENT

The following serves a purpose to explain the FIA Formula E Championship media accreditation procedure for all race events. The **only** way to apply for media accreditation is through the official FIA Formula E online system. Please see below how the system works from start to finish.

PLEASE NOTE: Under no circumstances will any member of the media be permitted inside a Formula E race event without the necessary approved media accreditation.

APPLICATION PROCESS

- **ALL** media requests from print or online publications, agencies or TV and broadcast media, whether national or international, **must** be made via the FIA's online system here (<http://www.fia.com/media-centre/media-accreditation>).
- There are two types of passes media can apply for: single race and full season accreditation *Please note that full season passes can have shared ownership with up to two names on the pass.*
- First-time applicants (publications/agencies/TV and broadcast media) must register before any application for accreditation can be submitted. *Please note that any media already registered onto the FIA system for another championship must still complete the registration form.* Applicants may be asked for a number of documents which need to be supplied by email, or in their original form via post if necessary. Following approval by the FIA/Formula E, the applicant will receive an email which will give access to the online accreditation system. ***Please note that the FIA/Formula E reserves the right to refuse access to the online accreditation system.***
- After approval the online accreditation system can be accessed via the FIA website using your chosen username and password. The online accreditation system will apply for accreditation requests for any event of the 2014/2015 FIA Formula E Championship. Permanent pass applications for the 2014/2015 FIA Formula E Championship will open on **13th June 2014**. The online accreditation system not only gives the possibility to apply for a press credential but also to monitor current and past requests any time the user logs into their account on the system.

- All applicants have the opportunity to apply for grid, pitlane access and parking, however, due to space constraints and in the views of safety there will be strictly limited numbers available. Any members of the media requiring trackside access will be provided with tabards at the event and receive a safety briefing.

GUIDELINES & REGULATIONS

- Formula E only accredits publications and agencies:
 - a) with a minimum circulation whose size and quality fulfil the criteria of Formula E;
 - b) with a format and quality which fulfil the criteria of Formula E;
 - c) which are available to the public in sales outlets (for publications only)
- TV and broadcast media must apply online as either a 'rights' or 'non-rights' holder. All applicants are reminded that the FIA reserve the right to refuse access to the online accreditation system.
- Internet Accreditation is intended for professional stand-alone Internet editorial/news coverage only. Because of space constraints at circuits, the number of websites that can be accredited is limited and availability may depend on the location. An application may be refused even where all the Accreditation Criteria are met.
