Full description of the request

Request(s):

To provide a waiver for the design of the VOLVO S60 WTCC VK-S2000 front bumper, front fenders and rear bumper until eight days prior to the start of the event of Morocco.

Reason(s):

Following the FIA homologation inspection of the VOLVO S60 WTCC, we are unable to proceed to the requested changes to produce components in time for the first three rounds of the season (France, Slovakia and Hungary). The changes required, although they appear minor, affect the front bumper, rear bumper and front fender design and as a result their moulds all require to be re-machined before producing new parts.

The period required to reach an agreement with the FIA on their requirements for these components has taken longer than all parties expected. As the deadline is now too near to bring forward new components we would like to request a waiver to compete in the first three rounds (France, Slovakia and Hungary) with the front bumper, rear bumper and front

fenders presented during the homologation inspection. From the fourth round onwards (Morocco), we will utilize the new front bumper, rear bumper and front fenders which have the requested changes.

The shape of the front bumper, rear bumper and front fenders have minor differences and therefore we believe that there is no advantage gained by utilizing either set of components. Given that the process has concluded so close to the beginning of the season we feel that a joker does not need to be utilized for the changes that will be presented eight days prior to Morocco scrutineering. We are currently working to complete this.

Missions concerned (to be completed by the Committee)

- ☒ 1) examination of any request for a technical change concerning the homologation form of a vehicle,
- ☐ 2) conformity with the spirit of the FIA Super 2000 Regulations,
- ☐ 3) prohibition of any developments that would result in a significant increase in the costs of cars,
- ☐ 4) examination of any request from competitor wishing to take part in an FIA event with a car complying with national regulations,
- ☐ 5) to review at the end of each season the relative performance of the various different formats of vehicles and any other parameters, with the objective of maintaining equal opportunity for all competitors. Any recommendations for the following season will be proposed beforehand to the Touring car Commission for approval,
- ☐ 6) at any moment during the season, to reconsider the technical dispensations granted for performance reasons.
