Full description of the request

Request(s):

To provide a waiver for the design of the VOLVO S60 WTCC VK-S2000 front and rear doors and related energy absorbing devices until eight days prior to the start of the event of Slovakia.

Reason(s):

Following the FIA homologation inspection of the VOLVO S60 WTCC, we are unable bring forward new homologated components in time for the first round of the season (France). The period required to reach an agreement with the FIA on their requirements for these components has taken longer than all parties expected. Due to long lead time on the original components and that the deadline is now too near to bring forward these components we would like to request that permission be granted to compete in the first round (France) with the doors and energy absorbing devices presented at the homologation inspection. As the process has concluded so close to the beginning of the season we feel that a joker does not need to be utilized for the changes that will be presented eight days prior to Slovakian scrutineering. We are currently working to complete this.

**Missions concerned (to be completed by the Committee)**

- ☒ 1) examination of any request for a technical change concerning the homologation form of a vehicle,
- ☐ 2) conformity with the spirit of the FIA Super 2000 Regulations,
- ☐ 3) prohibition of any developments that would result in a significant increase in the costs of cars,
- ☐ 4) examination of any request from competitor wishing to take part in an FIA event with a car complying with national regulations,
- ☐ 5) to review at the end of each season the relative performance of the various different formats of vehicles and any other parameters, with the objective of maintaining equal opportunity for all competitors. Any recommendations for the following season will be proposed beforehand to the Touring car Commission for approval,
- ☐ 6) at any moment during the season, to reconsider the technical dispensations granted for performance reasons.
