Full description of the request		

## Request(s):

I would like to inform you that Yokohama officially asks to change tire specification for all those ETCC cars fitting 18" size (TCN2-TCR).

Specification we would like to introduce is the most performing WTCC one (N2800 slick & N2801 wet).

Having already the WTCC on same size rim and tires produced for it, is for us easy tire handling and we can give more performance to ETCC category.

## Reason(s): Reasons of decision are mainly the following:

- 1. Tire reliability.
- 2. Tire performance.
- 3. Tire consistency.
- 4. Production decisions due to a non-clear future situation about ETCC 2017 season.
