**Full description of the request**

**Request(s):**

Relief from the compulsory compensation weight use or exemption to use reduced weight.

**“79. Compensation weight always relates to the homologated model from his actual homologation cycle.”**

**Reason(s):**

We request the TC Comitee to allow us not to carry the same weight as the Honda Civic WTCC cars from the new homologation cycle (300/01 KS) on our H49-008 Honda Civic WTCC car, because our car relates to the last homologation cycle (200/01 KS). If we should use the same weight as the cars from the new cycle our performance will remain the same as in Morocco or in Monza:

- top speed Morocco Qualifying: Michigami and Panis 190,4, Daniel 187,5
- top speed Monza Qualifying: Tiago 264, Daniel 253
- Average laptime diff/km: +0,5 second

We also a small private team, who does not have the same financial budget to upgrade both of our cars to the new homologation cycle.

**Missions concerned (to be completed by the Committee)**

- ☒ 1) examination of any request for a technical change concerning the homologation form of a vehicle,
- ☐ 2) conformity with the spirit of the FIA Super 2000 Regulations,
- ☐ 3) prohibition of any developments that would result in a significant increase in the costs of cars,
- ☐ 4) examination of any request from competitor wishing to take part in an FIA event with a car complying with national regulations,
- ☐ 5) to review at the end of each season the relative performance of the various different formats of vehicles and any other parameters, with the objective of maintaining equal opportunity for all competitors. Any recommendations for the following season will be proposed beforehand to the Touring car Commission for approval,
- ☐ 6) at any moment during the season, to reconsider the technical dispensations granted for performance reasons.

**Decision (to be completed by the Committee)**

- ☐ Accepted as requested
- ☐ Accepted subject to the approval of the TC Technical Working Group
- ☐ Accepted subject to the approval of the TC Commission
- ☒ Refused
- ☐ Suspended
- ☐ Accepted with the following modifications/conditions:

Accepted by the TWG  
on:

Conditions fulfilled  
on:

Reason: The compensation weight regulation makes reference to the homologation model in its calculation and application. The difference is coming from application of an extension not the homologation itself. Your car was the 2<sup>nd</sup> quickest at Marrakech. Therefore having an influence in the compensation weight calculation for the Honda works' team. The Committee will monitor the situation during the season.
