### FOGMAKER extinguisher system EX.001.97 withdrawal

We would like to inform you that, for safety reasons, the homologation of the following extinguisher systems is withdrawn with immediate effect:

Manufacturer	Model	Homologation number
FOGMAKER INTERNATIONAL	FOGMAKER	EX.001.97

As these extinguisher systems can no longer be considered as complying with the FIA standard for plumbed-in fire extinguisher systems in competition cars, their use is not authorized in all cases in which compliance with the above-mentioned standard is mandatory.

Please note that a complete and up-to-date list of extinguisher systems homologated according to the FIA standard for plumbed-in fire extinguisher systems in competition cars may at any time be accessed on the FIA website, Homologations section with the name Technical List N°16 (<https://www.fia.com/regulation/category/761>).

Please be so kind as to take all the necessary measures to ensure that this decision is adhered to within your sphere of competence.

We remain at your disposal for any further information you may require.

Kind regards,

Nuria Encinas
