Technical Delegate's Report

Car 20, driver Kevin Magnussen, consumed more than 105kg of fuel, from the time at which the signal to start the race was given to the time the car had crossed the Line after the end-of-race signal had been given.

As this is not in compliance with Article 30.5 of the 2018 Formula One Sporting regulations, I am referring this matter to the stewards for their consideration.
