

2019 RALLY MORITZ COSTA BRAVA

DECISION No 4 posted at: 19:10 on the 06 May 2019

From: The Stewards

Date: 6 May 2019

To: KeySport Engineering SRL

Time 19:00

The Stewards, having received a formal report from Intertek regarding the fuel analysis of a sample from Car 1 dated 26.03.2019 reference 191779, summoned and heard the driver "Lucky" (Car No 1) and competitor representative Luca Malatesta, have considered the following matter, determine the following:

Driver and car No: "Lucky" & Fabrizia Pons, Car 1

Competitor: KeySport Engineering SRL

Time : Fuel sample taken during the event and the analysis undertaken in accordance with FIA regulations after the event

Fact: Fuel used during the event did not comply with FIA regulations

Offence: Breach of Appendix J – Art. 252.9 (level of aromatics being above the acceptable limit of 35.0%)

Decision: That the competitor and the crew be disqualified from the results of the event and all affected competitors to be moved up 1 place. Further no championship points may be scored for either Driver, Co-driver or the team.

Reason: Having considered the matter extensively, the Stewards were informed by the competitor that they simply used fuel supplied by an independent supplier with whom they have a contractual relationship. The Stewards fully accept assurances from the team that they did not request fuel other than that compliant with FIA regulations and further the Stewards considered that their statement of being both surprised and upset at the result was genuine and heartfelt. It is understood that the competitor has formally written to the supplier but has, to date, received no satisfactory reply.

The competitor accepted the opportunity to have their fuel sample independently tested and freely accept that it did not conform to the regulations.

Competitors are reminded:

of their right to appeal in accordance with Article 15 of the FIA International Sporting Code [and Article 9.1.1 of the FIA Judicial and Disciplinary Rules].
