1. GENERAL INFORMATION

ABOUT CIRCUIT OF THE AMERICAS

Circuit of The Americas (COTA) in Austin, Texas, is a world-class destination for premium sports and entertainment events, the first racing facility in the United States purpose-built for Formula 1™ racing. COTA is home to the FORMULA 1 UNITED STATES GRAND PRIX™, which was named the 2012 "Sports Event of the Year" by SportsBusiness Journal/Daily. Attendance at the United States Grand Prix has exceeded 235,000 each year, making it one of the best attended races on the calendar and securing COTA's status as the United States' new home for Formula 1 motor racing.

In June 2015, COTA hosted the prestigious summer edition of the ESPN X Games, bringing thousands of extreme sports athletes and spectators from around the world to central Texas for four days of international competition that was broadcast globally. COTA bested competitive bids from top cities including Chicago, Detroit and Charlotte, N.C., to win the games for a four-year period.

Since its grand opening in the fall of 2012, COTA has hosted more than 1 million visitors at events such as the world's premier motorcycle racing series, MotoGP™; V8 Supercars™, the most popular motorsport in Australia; and the popular U.S. series GRAND-AM Road Racing™, now known as United SportsCar Racing after merging with the American Le Mans Series. The Tudor United SportsCar Championship was one of two endurance racing series, including the FIA World Endurance Championship, hosted at COTA as part of the annual Lone Star Le Mans event. COTA holds the unique distinction of being the only U.S. facility to host three World Championship auto racing series (Formula 1, MotoGP and World Endurance Championship) within one year. For 2016, COTA will be the only American round on each of those series' calendars.

The 1,500-acre complex features a variety of permanent structures designed for business, education, entertainment and race use, with only 350 acres fully developed. The 3.4-mile undulating racetrack was designed by the world-famous architectural and engineering firm, Hermann Tilke GmbH & Co., and features dramatic, natural elevation changes, including a 133-foot climb up to its signature Turn 1. The 20-turn circuit incorporates some of the best-loved and most challenging turns from other iconic Formula 1 tracks around the world.

COTA is also home to the Austin360 Amphitheater, an expansive outdoor live music space with room for 14,000 guests. Recently named one of USA Today's 10 Best Concert Venues Across the USA, Austin360 Amphitheater features the largest permanent stage in Central Texas.

1. GENERAL INFORMATION

Directly behind the Austin360 Amphitheater is the Circuit's 25-story Observation Tower, the venue's most noted architectural element. The Tower features an observation deck with a 360-degree view of the racing circuit, downtown Austin and Texas Hill Country.

COTA's paddock area is home to a 270,000-square foot Pit/Paddock Building with 34 garage bays and two upper levels of hospitality space. Additionally, the 44,000-square foot Event Center hosts business and social functions and serves as the venue's Media Center during major sports and entertainment events. Also among the facility's offerings is a massive grandstand with corporate suites, a chic, multipurpose lounge space and permanent seating for more than 9,000 guests. A state-of-the-art medical facility provides emergency medical care for competitors and spectators alike. The facility has on-site parking for approximately 25,000 vehicles, permanent depots for shuttle buses and taxis and an on-site heli-stop.

2017 FORMULA ONE GRAND PRIX DE MONACO MONTE CARLO

Date	25-28 May	Race distance	206.520 km
Circuit length	3.340 km	Number of laps	78

Monaco remains one of the most prestigious auto races in the world, long recognized for its entertainment and celebrity presence. Motorsports most famous street circuit takes six weeks to build up and organize, offering drivers with the challenge of negotiating numerous elevation shifts and very tight corners, including one of the slowest corners in F1 racing as well as one of the fastest. Due to its unique configuration, change in speeds and lack of straights, keeping the engine cool is a point of focus for the teams, as Formula One cars depend on air moving over the car to remove heat and don't use formal cooling technology.

Date	09 - 11 June	Race distance	305.270 km
Circuit length	4.361 km	Number of laps	70

The circuit, on Ile Notre Dame, a man-made island on the St. Lawrence River, was renamed for Canadian Formula One driver Gilles Villeneuve, following his death in 1982. 2006 saw the last occasion when US-based Champ Car and F1 ran on the same track. Formula One's performance proved significantly better with a 5-to-7 second advantage both in terms of qualifying and recording of fastest lap times during the respective races. The Canadian Grand Prix continues to be tremendously popular with both teams and drivers, owing to its festive atmosphere.
