Compound name	None
Unique markings	PB 20 clearly engraved on both sidewalls
Technical parameters designating the tyre as being a full wet	Specific casing and compound dedicated to full wet road use.
Available sizes (Dec 2016)	18/60-15 (205/55 R 15 79 H) 23/62-15 (275/45 R 15 86 H)

PIRELLI

Nominated Pirelli P7 Corsa Classic W7

Specification name	P7 Corsa Classic Wet W7
Compound name	W7
Unique markings	Wet pattern and P7 Corsa Classic Wet W7 clearly marked on sidewall
Technical parameters designating the tyre as being a full wet	Wet pattern specifically designed to increase water dispersal and reduce aquaplaning. Compound working in only humid or wet conditions
Available sizes (Dec 2016)	165/60-13 225/45-13 235/45-15 295/40-15 235/40-17 225/45-16 Under development

AVON

Nominated Avon CR28 Sport

Specification name	CR28 Sport
Compound name	A30
Unique markings	Each size is manufactured with its own unique specification number moulded into one sidewall of the tyre. These are listed next to the sizes below.
Technical parameters designating the tyre as being a full wet	The CR28 Sport tread pattern has high sea-to-land ratio and uses a soft compound ideal for full wet conditions. It offers only Modest dry weather performance.
Available sizes	185/60R13 80H Specification # 3413
	205/60R13 86H Specification # 4222
	185/60R14 82H Specification # 3414
	195/50R15 82H Specification # 4752
	205/50R15 86H Specification # 4151

EXCEPTIONS' LIST
LISTE DES EXCEPTIONS

- **CATEGORY 1**
All cars will revert to the 2016 regulation and may register up to a maximum of 14 tyres. (Thus there is no freedom to use additional wet tyre)
- **CATEGORY 2, 3 & 4**
For these categories, cars competing in the FIA European Historic Sporting Rally Championship and for which **it can be demonstrated that** no suitable full wet tyres are available will revert to the 2016 regulation and can register up to a maximum of 14 tyres per – tarmac – rally.
