The VOC measurement of the tyres may not exceed 15 ppm (maxi- mum limiting value) under any circumstances.

Note: Pollution of the tyres, e.g. by chain spray, must be avoided since this can result in the limiting value being exceeded.

Should the check establish that one or more tyres are not in conformity with the regulations, the relevant Driver will not be allowed access to the “Start Servicing Park” and to the “Pre-Grid”: consequently no participation in the corresponding part of the competition (Qualifying Practice, Qualifying Heats and Final). Protests against this procedure are not admitted. Protests and Appeals in this regard do not have a suspensive effect.
