

2017 AUSTRALIAN GRAND PRIX

From	The FIA Formula One Technical Delegate	Document	11
To	The FIA Stewards of the Meeting	Date	24 March 2017
		Time	19:39

Technical Delegate's Report

During the first free practice session:

The tyre starting pressures of all cars were checked.

The instantaneous fuel flow of all cars was checked.

The fuel temperature of all cars was checked.

After the first free practice session:

It was checked that all cars did not exceed 15000 rpm during the first free practice session.

The fuel pressure of all cars during the first free practice session was checked.

The logged pressure within the engine cooling system during the first free practice session was checked on all cars.

A fuel sample was taken from car number 27.

During the second free practice session:

The tyre starting pressures of all cars during P2 were checked.

The instantaneous fuel flow of all cars was checked.

After the second free practice session:

Car numbers 55 and 08 were weighed.

Car numbers 55 and 08 were checked for the following:

- 1) Bodywork around the front wheels
- 2) Front wing height and overhang
- 3) Rear wing height and overhang
- 4) Front and rear wing width
- 5) Rear wing configuration
- 6) Rear bodywork area
- 7) Rear winglet height
- 8) Stepped bottom
- 9) Overall height
- 10) Overall width

It was confirmed for car numbers 55 and 08 that any vertical cross section of bodywork normal to the car centre line and situated in the volumes defined in Article 3.5.7 form one tangent continuous curve on its external surface with a radius no less than 75mm.

The concave radius of sections of the two rear wing elements which are in contact with the external air stream was checked on car numbers 55 and 08.

The tyres used by all drivers during the sessions today have been checked.

A fuel sample was taken from car number 14.

The results of fuel analyses show that the fuels were the same as ones, which had been approved for use by the relevant competitors prior to the Event.

Further the density change of the fuel samples taken today was within the permitted limits.

All the above items were found to be in conformity with the 2017 FIA Formula One Technical Regulations.

Jo Bauer

The FIA Formula One Technical Delegate
