

Magneti Marelli

Magneti Marelli designs and produces advanced systems and components for the automotive industry. With its 85 production units, 12 R&D centres and 26 application centres in 19 countries, about 38,000 employees and a turnover of about 6 billion Euros in 2013, the group supplies all leading carmakers in Europe, North & South America and the Far East.

Magneti Marelli's involvement with motor racing (dating back to 1919) is connected to the great impulse which Magneti Marelli has always devoted to innovation, of which motor racing is the perfect exponent.

The Magneti Marelli Motorsport Business Line is involved in the design, manufacture, sales and technical support of a complete range of hardware and software components for racing competitions.

Portfolio includes electronic and electromechanical systems related in particular to engine and vehicle control, data acquisition and transmission.
