Note to the Teams

Fuel pressure release in parc fermé

For safety reasons, teams are authorized to appoint one person specifically in order to release the pressure inside the fuel cell when the cars return after each session. When the cars are in the parc fermé, this person must request prior authorization from the FIA Technical Delegate on site and is only authorized to perform the action specified above.

This person will not count as far as Article 21.5 of the 2021 FIA F3 Sporting Regulations is concerned (team personnel limitation)
