		Time	15:30

Technical Delegate's Report

After the race of the 2021 Emilia Romagna Grand Prix, car number 07 was randomly chosen among the top ten cars for more extensive physical inspections.

Subject to these physical inspections were all steering system components (steering wheel, steering column, steering rack, power assisting system, hydraulic lines and reservoirs, track rods) as well as all attached sensors, their loom routing and connections to the SECU and other units.

All inspected components were found to be in compliance with the 2021 Formula One Technical Regulations.

Jo Bauer
