Technical Delegate's Report

After the race of the Russian GP car number 55 was randomly chosen among the top ten cars for more extensive physical inspections.

Subject to these physical inspections were front and rear brake calipers, front and rear brake friction material, brake line routing from the brake master cylinder to the calipers as well as all attached sensors, their loom routing and connections to the SECU and other units.

All inspected components were found to be in compliance with the 2021 Formula One Technical Regulations.
