		Time	13:21

Technical Delegate's Report

After Race 2:

The Central Part of the plank of car 17 was found to be with a maximum thickness of 3.7mm in the most forward scrutineering hole.

This is not in compliance with Art. 4.2 of the FIA Formula 2 Championship Technical Regulations. The front and central parts of the plank fitted under the bodywork facing the ground must have at all times a thickness of 5mm +/- 1mm.
