SPA FRANCORCHAMPS EVENT

25 TO 28 AUGUST 2022

From	The Chairman of the Stewards, The Promotor & The FIA Race Director	Document	07 (2 pages)
To	FIA Formula 2 Teams and Officials	Date	25 August 2022
		Time	19:25

Bulletin 1 – Spa Event – Electric Wheel Guns Sporting Regulations Article 38.5, Article 38.8 & Article 38.9

The following changes have been made to the F2 Sporting Regulations with immediate effect on the grounds of providing a safe working environment.

38.5 During the Sprint race each driver able to do so may enter the pit lane and stop in his designated area.

During the Feature race each driver able to do so must enter the pit lane at least once and stop in his designated area.

~~a) If a wheel is changed, its retaining security device must be replaced.~~

~~b) No more than six people may work on the car, plus one person assigned specifically to stop and release the car, all of which must wear head protection and eye protection.~~

~~c) Connections between the principal elements of the pit stop equipment operated by a Competitor are forbidden. For the avoidance of doubt, each wheel gun, each jack and any release system must all be operated autonomously of each other.~~

~~A jack must be manually operated. No autonomous, robotic, or similar system are permitted.~~

~~All pit stop equipment must be approved by the FIA before use at an Event.~~

~~d) Each jack must always be attended while in use.~~

38.8 During all pit stops of the Sprint race and the Feature race each driver able to do so must enter the pit lane once and stop in his garage area. During the pit stop:

~~a) At least two wheels must be changed on the car;~~

~~b) If a wheel is changed, its retaining security device must be replaced.~~

a) No more than six people may work on the car, plus one person assigned specifically to stop and release the car, all of which must wear head protection and eye protection.

b) Pit gantries are not permitted. Other than equipment for servicing the car (such as wheel fastening devices and jacks) the only equipment permitted in the designated area to aid the arrival and release of the car are; a hand held board (to aid the driver to position the car) with or without a light array (to notify the driver of the status of the pit stop), a hand-held button (for the person assigned specifically to pit lane traffic spotting to stop and release the car) and any video cameras used to record the pit stop.
