BULLETIN 3 – Amendment to FIA F3 Technical Regulation Article 10.2

The following changes have been made to the F3 Sporting Regulations with immediate effect in accordance with Article 1.3 of the FIA F3 Sporting Regulations.

10.2

Non-liquid cooling agents which use latent heat of evaporation, such as dry-ice are forbidden. ~~may only be added inside the left hand and right hand radiator duct between the radiator screen and the front face of the radiator itself. Any design or construction the purpose of which is to hold non-liquid cooling agents anywhere else on the car is forbidden.~~

However, non-liquid cooling agents within external devices which are attached to the car only when it is stationary are permissible.

~~It is the Competitors responsibility to ensure that non-liquid cooling agents are contained within the above defined position when the car is running on track.~~

Pierre-Alain Michot
Technical Director
F3 Promoter

Matt Selley
