### Technical Delegate's Report

During the second Qualifying session at 15:27hrs, the driver of car number 05, when called for weighing, refused to turn off the engine. The car was pushed onto the scales and weighed with running engine, which makes it difficult to get a stable result. After weighing the driver drove off the scales under its own power, and by doing so, he destroyed the scales.

As the driver was not following the instructions and further compromised the continuation of the weighing procedure, I am referring this matter to the stewards for their consideration.
