### Note to Teams

#### Marshalling system tests after P3

After every car on the track has taken the chequered flag we would like to do the following :

- a) Create a yellow sector.
- b) Send a "SAFETY CAR DEPLOYED" message to all cars. At this point drivers will be able to follow the "delta time" and carry out an extra lap if they would like to.
- c) Send a "DRS DISABLED" message.
- d) Send a "DRS ENABLED" message.

We would be very grateful if as many cars as possible are on the track at the end of the session, this will enable us to get a clearer picture of whether the improvements that have been made since yesterday have been effective across the whole field.
