### FRIDAY 18 JUNE 2021

Press videoconference for up to 6 team personalities, selected by the F1 Communications Director and Media Delegate, from the Media Centre Press Conference Room.

#### 13:00 - 13:30 - Group 1

- Laurent Rossi (Alpine)
- Frédéric Vasseur (Alfa Romeo)

#### 13:30 - 14:00 - Group 2

- Mattia Binotto (Ferrari)
- Mario Isola (Pirelli)

### SATURDAY 19 JUNE 2021

### At the end of the qualifying session

a) One-sided TV interviews of the first three drivers of the qualifying session, at the foot of the podium.
b) Press video conference of the first three drivers of the qualifying practice session, from the Press Conference Room.

### SUNDAY 20 JUNE 2021

### At the end of the award ceremony

a) One-sided TV interviews with the top three riders at the end of the race, at the foot of the podium.
b) End of race press conference with the first three classified drivers, from the Press Conference Room.

## Press conferences

FORMULA 3 WORLD CHAMPIONSHIP

### THURSDAY 17 JUNE 2021

#### 17:00 - 17:30

Press videoconference of the first three drivers of the qualifying session, from the Press Conference Room of the Media Centre.

### FRIDAY 18 JUNE 2021

16:05 - 16:35

Press video conference of the first three drivers of the qualifying session, from the Press Conference Room of the Media Centre.

### SATURDAY 19 JUNE 2021

11:15 - 11:45 & 17:45 - 18:15

Press videoconference at the end of race 2 with the first three classified drivers, from the Press Conference Room of the Media Centre.

### SATURDAY 19 JUNE 2021

#### 12:45 - 13:15

Press videoconference at the end of race 3 with the first three classified drivers, from the Media Centre Press Conference Room.

We recall that during the press conferences, the television crews and the and TV cameras are not allowed in the Media Centre.

# Media Center

Formula 1 Emirates Grand Prix de France 2021 Le Castellet 18-20 June

#### FIA

FIA Communications Director: Olivier FISCH

FIA F1 Media Delegate: Tom WOOD

FIA F1 Communication Officer: Roman DE LAUW

#### Promoter / GIP Grand Prix de France - le Castellet

**Communications Director:** Pierre GUYONNET-DUPERAT - +33 (0)643121707

#### Média staff

National Press Officer (NPO): Audrey ZACHAYUS - +33 (0)629547573

NPO Assistant: Caroline ODENT

#### Media Center Manager:

Louise Haupais - Assisted by Magalie Bernard

Accreditation Manager: Céline LUBERT

#### Press staff

Baptiste Baud, Louise Berger, Dan Lavore, Jean-Christophe Michaut, Tanguy Péan-Valette, Julien Rouyer

#### Internet

The internet service is FREE. A network name and a connection code will be given to you when you register at the press desk.

#### IT Service

Specialized IT staff is available all day if you have any connection or computer problems.

## Self-service equipment in the press room

Connected computers and a printer are available for self-service in the press room.

#### Lockers

Journalists and photographers can use lockers in the media center, during official opening hours. Locker keys can be collected from the Media Desk in the press room and the photographers' room against a deposit of  $10 \in$ .

#### Catering

A catering service will be available from Thursday, June 17 to Sunday, June 20. This catering includes: breakfast buffets, lunches, snacks and evening lunch. A beverage service is available throughout the day and water fountains are also available in the press room and the photographers' room. in the press room and in the photographers' room. Catering is served on the outdoor terrace next to the media desk in the press room. It is not allowed to eat in the press room and in the photographers' room.

#### Waze

We invite you to download this GPS guidance application in order to get to the Circuit Paul Ricard and to the Media parking lot visible in the application under the name «Parking F1 Media».

#### Toilets

Toilets are available between the press room and the photographers' room and throughout the circuit in many places.

### Special information for photographers

Red zones exist on the circuit. A document to help you understand the traffic patterns and restrictions will be given to you when you check in at the press desk and will be displayed in the press room and the photographers' room.

#### Photographer's tower

It is installed outside the first turn of the S de la Verrerie, access on foot from the media center. The permanent accredited photographers with an FIA jacket or a chasuble for each race will be allowed to access it.

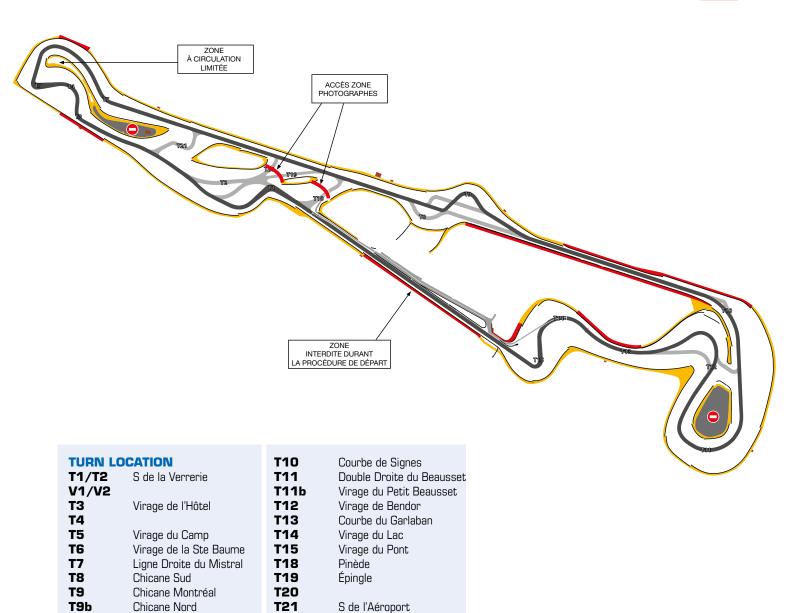

GIP GRAND PRIX DE FRANCE LE CASTELLET

# Safety track plan

## The Circuit

## Paul Ricard Circuit

SUSTAINABLE DEVELOPMENT POLICY

Ideally located in the heart of a preserved area and the Sainte Baume Regional Natural Park, the Circuit Paul Ricard strives to fully assume its environmental, societal and economic responsibilities. Its strategy is to reduce its environmental impact, to innovate for the benefit of an increasingly exemplary motor sports industry, and to contribute to the sustainable mobility of tomorrow.

In 2019, the Circuit Paul Ricard was the first circuit in France and the second F1 circuit in the world to obtain the highest level of FIA environmental certification (3 stars). This certification rewards the actions taken by the circuit over the past 10 years to preserve its environment.

#### KEY SUSTAINABLE DEVELOPMENT ACTIONS :

#### **BIODIVERSITY:**

The fauna and flora census organized in 2018 identified a total of 183 floristic species, 2 species of chiropterans, 16 species of invertebrates, 3 species of reptiles, 5 species of amphibians, 36 species of birds and 2 species of mammals on the Circuit Paul Ricard site.

The circuit strives to respect the natural environment and to fit in with it in harmony by reducing its impact: maintenance of the 150 ha of green spaces by a reasoned practice, recovery of rainwater and runoff from the artificial lake of 60,000 m3, the use of eco-grazing to clear the difficult to access areas (mounds and grandstands), creation of the Teddy course commercialized at the Xtrem Park to introduce the public to the various actions of the circuit in favor of the environment.

#### AIR QUALITY AND AIR POLLUTION PREVENTION:

The circuit monitors the quality of its environment by using bee colonies installed in 2 beehives at the entrance of the site (apicultural environmental biomonitoring or apivigilance). The analysis of the bees twice a year reveals an excellent quality of the surrounding air, the activity of the circuit thus does not have a major impact.

#### FIGHT AGAINST NOISE EMISSION

The Circuit Paul Ricard constantly monitors its noise emissions via an acoustic measurement system in order to ensure compliance with current regulations and to maintain the most harmonious climate possible in the area surrounding the circuit. For several years now, the circuit has been measuring its noise emissions 24/7 thanks to 4 noise measuring stations

## Paul Ricard Circuit

#### SUSTAINABLE DEVELOPMENT POLICY

located on the site. The results respect the standards in force for each acoustic measurement. The circuit is committed to building 800 m long natural anti-noise mounds, to developing non-motorized events on the circuit: Bicycle event, Sunset Bike, Triathlon....

#### WASTE MANAGEMENT

The Circuit Paul Ricard has an efficient waste management policy that allows for the sorting and recycling of 100% of recoverable waste. Numerous actions have been implemented to identify, sort and reduce the amount of waste related to its activities. 19 types of waste are collected and sorted on the circuit thanks to the investment in professional equipment dedicated to the collection and recovery of its waste.

### ENERGY AND WATER CONSUMPTION:

The Circuit Paul Ricard is committed to reducing its consumption and turning to clean energy:

Recovery of rainwater and runoff from the tracks and parking lots to be conveyed to the lake via a network of underground pipes, passing through hydrocarbon separators. The water is used for watering the green spaces and the runway, but also to build up a safety reserve in case of fire and to supply non-potable water sources. 20,000 m<sup>2</sup> of photovoltaic panels are used to shade the vehicles in parking lot G and produce approximately 3,484MWh in 2019, the equivalent of the consumption of 2,968 people/year (excluding heating). The entire production is redistributed to the local electricity grid.

#### ECO-SYSTEM

The Circuit Paul Ricard works mainly with local suppliers. 80% of our suppliers are from the PACA region and work on the site all year long. The Circuit Paul Ricard's purchasing policy is to favor eco-designed and recycled products as well as larger quantities in order to reduce packaging and deliveries. The Circuit Paul Ricard works on eco-responsibility charters with its clients, event organizers and service providers.

#### SUSTAINABLE MOBILITY

The circuit plays a role in reducing fossil fuel consumption: a large fleet of electric and hydrogen vehicles for the technical teams, charging stations for electric vehicles, promotion of new energies (contribution to the development of the hydrogen sector with the hosting of the first hydrogen station in the Var), switch to bio-diesel for the technical vehicles and the track safety vehicles.
