## 2017 FIA EUROPEAN DRAG RACING CHAMPIONSHIP

**ERRATUM****Clarification Note No.1 – to all FIA European Drag Racing Championship Competitors**

Dear Competitors,

Please find below a clarification note regarding the 2017 FIA European Drag Racing Championship Sporting Regulations.

**2017 FIA European Drag Racing Championship – Sporting Regulations**

**Clarification of Article 10 – Top Methanol handicap index system**

The FIA Drag Racing Committee is pleased to announce that the handicap index has been defined for the 2017 FIA European Drag Racing Championship concerning the Top Methanol Funny Car and Top Methanol Dragster combined category.

**The Index will be 0,26 sec.**

This means that the Methanol Funny Cars in the combined category will get a 0,26 sec. head start on the Start line (Pro Tree). In order to determine the positions in qualifying, the index of 0,26 sec. will be deducted from the Top Methanol Funny Car ET's and will be compared with the Top Methanol Dragster ET's.

The index of 0,26 sec. has been determined by calculating and comparing Europe's Top ten best ET's in Top Methanol Funny Car and Top Methanol Dragster over the past ten years.

Any decision concerning the changing of one or several of these parameters will be notified by the FIA Drag Racing Committee to the competitors at the latest two weeks before the start of the next event concerned by posting that decision on [www.fia.com](http://www.fia.com).

Yours sincerely,

Lars Pettersson  
Vice-President  
FIA Drag Racing Commission

Frans Steilberg  
FIA Technical Delegate  
FIA European Drag Racing Championship

Tapio Valja  
FIA Race Director  
FIA European Drag Racing Championship

**REMINDER:** Any FIA opinions given above are advisory in nature and do not constitute Sporting or Technical Regulations. It is for the Stewards, and ultimately the FIA International Court of Appeal, to offer binding interpretations of the Sporting and Technical Regulations
