DECISION N°: WEC_2021_D0005_All_On board cameras

DATE: 02/03/2021 **FROM:** The WEC Committee

SUBJECT: Weight of cars with or without onboard cameras

APPLICABLE REGULATION

Article 4.1.2 2021 FIA World Endurance Championship Sporting Regulations

DECISION

Technical description is summarized in document "Onboard Camera Setup 2021.pdf" sent on January 26th.

With a minimum weight of all cars defined and maintained without camera system, it is considered of major importance that the cars equipped with camera system do not suffer any performance penalty.

The following will be put in place, considering the weight of camera system = 3kg

- Cars without camera will need to have ballast on board (total 3kg)
- LMH cars: minimum car weight with camera system or camera ballast = described in BOP
- LMP1 NH cars: minimum car weight with camera system or camera ballast = described in BOP
- LMP2 cars: minimum car weight with camera system or camera ballast = 930kg
- LMGTE cars: minimum car weight with camera system or camera ballast = described in BOP
