

**To:**  Hypercar  LMGT3  (LMP2 – 24 Hours of Le Mans only)

**Decision:** WEC\_2026\_D02\_ALL\_Pit\_lane\_video\_monitoring

**Date:** 30/01/2026

**Subject:** Monitoring camera specifications

## APPLICABLE REGULATION(S)

**Article 6.3.4**  2026 FIA World Endurance Championship Sporting Regulations

**Article 6.3.4**  2026 24 Hours of Le Mans Supplementary Regulations

## DECISION

In accordance with the above-mentioned regulations, all teams will be asked to provide, install, and manage some video materials as well as specific tooling in order to fulfill the following specification.

### IP camera:

- Brand: **HIK VISION**
- Model:
  - o **DS-2CD6365G0E-IVS (1.27mm) (B) (O-STD) - (SAP code: 311319073)**
  - o Or **DS-2CD6365G1-IVS (1.16mm) - (SAP code : 311324116)**

According to the pit allocation and the associated working zone in the pitlane, a specific installation of the camera is requested:

**View from side**, the lens of the camera must be placed, face to the car, in the middle line of the car, respecting the bottom indicator, at a 300cm (+/-2cm) height:

# WEC COMMITTEE

**View from top**, the lens of the camera must be placed on top of the white line, in the middle line of the car:

The camera must be oriented toward the car respecting an angle of  $25^\circ$  ( $+/-2^\circ$ ) from a horizontal plan:

During the entire event, the camera setup shall remain stable so that:

- The center of the pit working area is shown positioned horizontally and vertically in the image.
- The pit working area is shown horizontal in the image.

# WEC COMMITTEE

## Camera setup:

- Each camera must be firstly set up and **named** as follow: "**Car race number**"\_ "**Team name**".
- Each camera must be then provided to ALKAMEL to be set up properly.
- The Technical Delegates will then own the "administrator" account and create a "viewer" account for each camera (credentials will be communicated to each camera owner).

## Network configuration:

The hardware to be used is the **Mikrotik CCR2004-16G-2S+** with the **SPECIFIC 2025 Season configuration**:

During QATAR Competition, the Network Installation Document will be shared as usual with the new updates on it.

You can purchase the new router model on the AKS WEC Store: <http://fiawec-store.alkamelsystems.com>

Please respect the following procedure:

1. "Sign up" for the new Competitors.
2. Fill in the compulsory fields.
3. Send the form using the TOKEN: AKS\_WEC
4. You will receive the User and Password within 1 day.
5. Then you will be able to Login.

For any kind of related problem, issue, or question: [store@alkamelsystems.com](mailto:store@alkamelsystems.com)

**All new ordered equipment will be configured for the 2026 setup at ALKAMEL's facility and delivered in Qatar on your arrival at the event.**

Depending on circuits infrastructure, you might need some extra devices or materials.

For the 24 Hours of Le Mans Competition, you will need at least two units of "single mode SC/APC – LC extension fiber" (5 meters minimum length, ideally 10 meters) to reach your electronics rack from the circuit fiber patch.

## Spare parts:

Teams are invited to own some spare parts.

## PERIOD OF VALIDITY/APPLICATION OF THE DECISION

This decision comes into effect:

**with immediate application**  
 from:

And is applicable:

**until further notice**  
 for the above-mentioned Competition only
