## **Technical Delegate's Report**

The front plank of car 12 was found to be with a maximum thickness of 3.7mm at the periphery of one of the designated holes.

This is not in compliance with Art. 3.2.2 of the FIA Formula 3 Championship Technical Regulations. A minimum thickness of 4mm will be accepted due to wear and must be respected at least in one position at the peripheries of the designated holes.

Jana Muehlner  
Technical Delegate  
FIA Formula 3 Championship
